

DYLAN CHAN

I'm a Product Designer with multiple years of industry experience at both startup and commercial scales. My interests lie in UI and product interactions, but I'm open to all facets of a collaborative design process given the opportunity.

SKILLS + SOFTWARE

Interface Design

Figma

Prototyping + Interaction

Figma

Design Systems + Iconography + Graphics

Figma

Workflow & Issue Tracking

JIRA + Notion

Font-End

HTML + CSS + JavaScript

Experience in B2B enterprise & B2C SaaS software

EDUCATION

Simon Fraser University
BSc in Interactive Arts and
Technology

INTERESTS

When I'm not working you can catch me planning my next hike! Otherwise I'll probably be busy getting lost in another rave.

EXPERIENCE + PROJECTS

Graphic Designer

December 2024 - current

Inhaus Surfaces

- Worked with imaging technologies to translate physical materials into 100s of production-ready files.
- Assessed production line workflows, conducted team surveys, and developed issue-tracking methods to support consistent improvement and transparency.
- Helped lead the adoption of Notion within a manufacturing environment, leading to increased metric visibility and communication with management.

Visual / Brand Designer - 1mos

March 2024

Workshop Ventures - page credentials are "guest" & "workshop0320"

- Designed extensive logo, wordmark, and graphic iterations based on evaluated brand values alongside key web designer.
- Developed a brand guidebook detailing logo decisions, brand alignment, and color/typography usage.
- Successfully launched new website and identity within one month.

UX / UI Designer - 1yr

May 2022 - April 2023

SAP iXp Internship

- Enhanced existing data workflows and outlined product merging and product deprecation processes within SAP Analytics Cloud (SAC).
- Designed interactive graphic visualizations for over 40 unique data features, leading to improved user clarity.
- Integrated an external product with SAC across desktop and mobile platforms, ensuring web and iOS design specifications were maintained.

Web / Product Designer - 8mos

May - December 2021

Course Studio (now Rare Days) Internship

- Founding team of a shipped, first-in-class 0-1 B2C SaaS product. Additionally created and managed its design system in Figma.
- Designed interfaces and site features for 7+ clients across various web pages.
- Gained further company backing through designed company presentations, communicating Course Studio's brand and strategy.
